

Job Site Organizing – Electrical Cords

Short of using battery powered tools ...what other means of organizing your site to avoid hazards come to mind here?

Were you aware that over 100,000 workers per year are injured and lose time off work from slips, trips and falling?

Can you describe your job site safety practices in respect to keeping it organized and “kept” to prevent accidents – if not this would be a good time to discuss how you might do so.
