

**SUCK FACTOR – EMPLOYEE ATTITUDES ON SAFETY**

**YOU SUCK IF YOU...**

Are complacent about safety

Don't care about safety meetings

Not learning about safety in general

Cut corners to get things done quickly or easily

Carelessly disregard safety rules and procedures

Fail to wear PPE when the supervisor's back is turned

Act recklessly because you either forget or don't care that  
your actions could harm someone else

Engage in horseplay

Come to work fatigued or hung over

## **YOU DON'T SUCK IF YOU...**

Take responsibility for your safety

Have a genuine concern for the safety and well-being of  
co-workers

Feel a duty to maintain a safe work environment

Keep informed about safety issues

Pay attention during safety meetings

Participate in safety discussions

Follow safety policies and procedures

Know how to identify hazards and how to protect against  
those hazards

**Discuss how these behaviors – both good and bad, may  
actually affect your current jobsite safety.**
